| 授業の目的 | Eikaiwa I (Travel English) aims to help students to improve their general conversational English ability and gain confidence in speaking English both in Japan and when travelling. Classes will involve a listening task that will introduce students to the context and the language points to be studied in the textbook. The speaking tasks and fun language games that follow the listening task will enable students to practice this language for themselves in pair and group settings. Self-study exercises will allow students to consolidate what they have learned in class at home. Additional materials will be provided to allow students to practice specific language that will be useful for travel overseas. | | | | | | | | |
| 到達目標 | English Conversation I (Travel English) (1 year 2 credits 2nd-4th grade students) In this class, students will have the opportunity to improve their conversational English skills by first listening to natural, native conversations and focusing on commonly used structures and phrases. Students will then build their confidence in spoken English by working in pairs and groups, experimenting with and practicing the new language. As confidence builds, students will have the chance to take part in longer, more advanced communicative activities, challenging themselves to complete tasks by making full use of their English language skills. | | | | | | | | |
