履修前提条件					備考				
授業の目的	This lecture is about the global challenges all countries must face. We will study global issues related to Education, Economics, Environment, etc. More specifically, we will learn about some amazing people who are trying to make our world a better place. Moreover, students of this lecture will be challenged to find ways to make our world a better place, too.								
到達目標	Do you want to learn about Global Issues in simple English? This lecture is taught mostly in English. (There is some Japanese support.) This class will help your English Listening (TOEIC), and you will learn more about the world. Global Issues students are encouraged to contribute to the class by asking questions and/or making comments. This is a fun and eye-opening class.
