授業の目的	This lecture is about the global challenges all countries must face. We will study global issues related to Fair Trade, the Global Water Crisis, Food & Health, and Energy. We will watch some amazing video documentaries that help illustrate these Global Issues. Students of this lecture will be challenged to find ways to make our world a better place, too.								
到達目標	Do you want to learn about Global Issues in simple English? This lecture is taught mostly in English. This class will help your English Listening (TOEIC), and you will learn more about the world. Global Issues Students are encouraged to contribute to the class by asking questions and/or making comments. This is a fun and eye-opening class.
